

**OnDataSuite - Accepted TSIA2 Data File Format**

Excel Column	Field Name	Field Type- Example
A	Test Start	Date – (Formatted as MM/DD/YYYY; ex: 01/01/2017, not 1/1/2017)
B	Last Name	Alpha – Doe
C	First Name	Alpha – Jane
D	Middle Initial	Alpha – H
E	Student ID	Numeric – Use 10-digit number. (Texas Unique ID) (This should not be a made up number)
F	Birth Date	Date – (Formatted as MM/DD/YYYY; ex: 06/05/2002, not 6/5/2002)
G	Site ID	Numeric – 001224-005
H	Inst ID	Numeric – 001224
I	Site Name	Alpha – Thomas Jefferson High School
J	TSIA2 Mathematics College and Career Readiness	Numeric – Three digit number. Example: 950
K	TSIA2 Mathematics Diagnostic	Numeric – One digit number. Example: 6
L	TSIA2 English Language Arts and Reading College and Career Readiness	Numeric – Three digit number. Example: 990
M	TSIA2 English Language Arts and Reading Diagnostic	Numeric – One digit number. Example: 6
N	TSIA2 WritePlacer	Numeric – One digit number. Example: 6
O	Text Analysis and Synthesis*	Numeric & Alpha – Example: 1-Basic
P	Content Revision and Editing for Conventions*	Numeric & Alpha – Example: 1-Basic
Q	Quantitative Reasoning*	Numeric & Alpha – Example: 1-Basic
R	Algebraic Reasoning*	Numeric & Alpha – Example: 1-Basic
S	Geometric and Spatial Reasoning*	Numeric & Alpha – Example: 1-Basic
T	Probabilistic and Statistical Reasoning*	Numeric & Alpha – Example: 1-Basic
U	ExNum	Numeric

\* NOTE: These fields were not visible during your build process in Step 2 (B). These fields are automatically generated when you create a report using the custom report method. These fields are not required fields but it is recommended that you include these for future reference and availability in future reports. If you are not seeing these extra 6 fields, please make sure you built this report following the exact steps outlined, and not the roster reports/score roster report method.
