

# Amplify Lectura Data File Layout

As of 01/19/2026

Amplify's posted Data File Layout				Special Notes from OnDataSuite
Column Name	Notes	Data Format or Values	Description	***Additional Criteria***
School Year	Numeric	2025-2026 [YYYY-YYYY]	Displays the institutional year for which the report was run.	
State	String	Two-letter state postal abbreviation, AL-WY	Indicates the state in which the account is located. It is the state associated with the school.	
Multi-District Organization Name	String	Amplify Multi-District Organization Name [Null]	Displays the name of the multi-district organization. Multiple rows display when an account has more than one multi-district organization.	
Reporting Group Name	String	Amplify Reporting Group [Null]	Displays the name of the reporting group. Multiple rows display when an organization has more than one group.	
District Name	String	Amplify District	Displays the name of the district.	
District Primary ID	String	A-DIST-001	Displays the customer-issued institution ID for the district when one exists.	
School Name	String	Amplify Elementary	Displays the name of the school in which the student is enrolled.	
School Primary ID	String	A-SCH-001 [Null]	Displays the primary customer-issued institution ID for the school when one exists.	Expecting: Campus State ID Number
Student Last Name	String	Smith	Displays the student's last name.	
Student First Name	String	Jane	Displays the student's first name.	
Student Primary ID	String	AS-JS-001 [Null]	Displays the account-assigned primary ID associated with the student. Secondary and additional student IDs appear in columns at the end of the DYD file if present.	Expecting: LEA's Local Student IDs as all integers OR STU### (Local ID)
Enrollment Teacher Name	List of strings	Lopez, Maria    Baker, Alex [Null]	Displays the teacher associated with the student's class. When more than one teacher is associated with a class, a double pipe    separates the teacher names. If a '  ' appears within the value itself, it is escaped with a '\' (i.e., '\ \\ ') to maintain data integrity.	ODS Display: May not return all of these values since they are often a high number and do not directly correspond to the students Language Arts Teacher
Enrollment Teacher Staff ID	List of strings	ML-001    AB-001 [Null]	Displays the ID of the teacher associated with the student's class. When more than one teacher is associated with a class, a double pipe    separates the teacher IDs. If a '  ' appears within the value itself, it is escaped with a '\' (i.e., '\ \\ ') to maintain data integrity.	
Enrollment Class Name	List of strings	Amplify Class 1    Amplify Class 2 [Null]	Displays all the classes associated with the student. When more than one class is associated with a student, a double pipe    separates the class names. If a '  ' appears within the value itself, it is escaped with a '\' (i.e., '\ \\ ') to maintain data integrity.	
Enrollment Class ID	List of strings	AC-GR1-001    AC-GR2-002 [Null]	Displays all the class IDs associated with the student. When more than one class ID is associated with a student, a double pipe    separates the class IDs. If a '  ' appears within the value itself, it is escaped with a '\' (i.e., '\ \\ ') to maintain data integrity.	
Enrollment Grade	String	K,1-6	Displays the student's grade, depending on DYD selection: - On test day: The grade in which the student was enrolled when the assessment was administered. - Now: The grade in which the student is currently enrolled.	

Assessing Teacher Name	String	Lopez, Maria [Null]	Displays the full name [Last, First] of the staff member who conducted the assessment.	
Assessing Teacher Staff ID	String	ML-001 [Null]	Displays the customer-issued ID of the staff member who conducted the assessment.	
Assessment Class Name	String	Amplify Class 1	Displays the class associated with the student's assessment.	
Assessment Class ID	String	AC-GR1-001 [Null]	Displays the customer-issued ID of the class associated with the student's assessment.	
Assessment	String	mCLASS Espanol	Indicates the name of the assessment selected to generate this report.	
Assessment Edition	String	mCLASS Lectura	Indicates the version or edition of the assessment in the Assessment column.	
Assessment Grade	String	K,1-6	Indicates the grade level of the assessment forms administered to the student.	
Benchmark Period	String	BOY MOY EOY	Indicates the period in which the assessment was administered.	
Completion Status	String	Complete Partial Not started	Indicates whether the student has finished benchmark assessment and has a composite score (Complete), has measure scores but no composite score (Partial), or has no measure scores (Not started).	
Device Date	Date	YYYY-MM-DD MM/DD/YYYY [Null]	Displays the date the student was most recently administered a benchmark measure.	
Sync Date	Date	YYYY-MM-DD MM/DD/YYYY [Null]	Displays the date the student's results were most recently synced from the assessment device to the mCLASS database.	
Composite Level	String	Above Benchmark At Benchmark Below Benchmark Well Below Benchmark [Null]	Indicates the student's performance level based on the mCLASS Lectura Composite Score.	
Composite Score	Numeric	0-454+ [Null]	Displays the student's numeric score for the mCLASS Lectura Composite Score.	
Composite - Local Percentile	Numeric	0-99 [Null]	A percentile for the student's Composite Score that corresponds to that score's rank when compared to other students in the same grade for the same time of year.	
Composite - National Norm Percentile	Numeric	0-99 [Null]	A percentile for the student's Composite Score that corresponds to that score's rank nationally when compared to other students in the same grade for the same time of year.	
Composite - Semester Growth	String	Well Below Average Below Average Average Above Average Well Above Average [Null]	Describes the student's progress achieved over a semester using BOY and MOY composite scores to calculate first semester growth and MOY and EOY composite scores for second semester. This column populates after MOY assessment when the student has both BOY and MOY scores, and after EOY when the student has both MOY and EOY scores. The column is null before MOY and when students lack a score necessary for growth calculation after MOY and EOY assessment.	
Composite - Year Growth	String	Well Below Average Below Average Average Above Average Well Above Average [Null]	Describes the student's progress achieved over the school year using BOY and EOY composite scores to calculate growth. This column populates after EOY assessment when the student has both BOY and EOY scores. The column is null before EOY and when students lack a score necessary for growth calculation after EOY assessment.	
Nombrar letras (FNL) - Level	String	Above Benchmark At Benchmark Below Benchmark Well Below Benchmark [Null]	Indicates the student's FNL performance level based on the number in the Nombrar letras (FNL) - Score column.	

Nombrar letras (FNL) - Score	Numeric	0-52+ [Null]	Displays the student's raw FNL score when the measure is completed.	
Nombrar letras (FNL) - Local Percentile	Numeric	0-99 [Null]	A percentile for the student's FNL score that corresponds to that score's rank when compared to other students in the same grade for the same time of year.	
Nombrar letras (FNL) - National Norm Percentile	Numeric	0-99 [Null]	A percentile for the student's FNL score that corresponds to that score's rank nationally when compared to other students in the same grade for the same time of year.	
Nombrar letras (FNL) - Semester Growth	String	Well Below Average Below Average Average Above Average Well Above Average [Null]	Describes the student's progress achieved over a semester using BOY and MOY FNL results to calculate first semester growth and MOY and EOY FNL results for second semester. This column populates after MOY assessment when the student has both BOY and MOY results, and after EOY when the student has both MOY and EOY results. The column is null before MOY and when students lack the results necessary for growth calculation after MOY and EOY assessment.	
Nombrar letras (FNL) - Year Growth	String	Well Below Average Below Average Average Above Average Well Above Average [Null]	Describes the student's progress achieved over the school year using BOY and EOY FNL results to calculate growth. This column populates after EOY assessment when the student has both BOY and EOY results. The column is null before EOY and when students lack the results necessary for growth calculation after EOY assessment.	
Conciencia fonologica (FSS) - Level	String	Above Benchmark At Benchmark Below Benchmark Well Below Benchmark [Null]	Indicates the student's FSS performance level based on the number in the Conciencia fonologica (FSS) - Score column.	
Conciencia fonologica (FSS) - Score	Numeric	0-66+ [Null]	Displays the student's raw FSS score when the measure is completed.	
Conciencia fonologica (FSS) - Local Percentile	Numeric	0-99 [Null]	A percentile for the student's FSS score that corresponds to that score's rank when compared to other students in the same grade for the same time of year.	
Conciencia fonologica (FSS) - National Norm Percentile	Numeric	0-99 [Null]	A percentile for the student's FSS score that corresponds to that score's rank nationally when compared to other students in the same grade for the same time of year.	
Conciencia fonologica (FSS) - Semester Growth	String	Well Below Average Below Average Average Above Average Well Above Average [Null]	Describes the student's progress achieved over a semester using BOY and MOY FSS results to calculate first semester growth and MOY and EOY FSS results for second semester. This column populates after MOY assessment when the student has both BOY and MOY results, and after EOY when the student has both MOY and EOY results. The column is null before MOY and when students lack the results necessary for growth calculation after MOY and EOY assessment.	
Conciencia fonologica (FSS) - Year Growth	String	Well Below Average Below Average Average Above Average Well Above Average [Null]	Describes the student's progress achieved over the school year using BOY and EOY FSS results to calculate growth. This column populates after EOY assessment when the student has both BOY and EOY results. The column is null before EOY and when students lack the results necessary for growth calculation after EOY assessment.	
Conciencia fonologica (QQ) - Level	String	Not Determined [Null]	Indicates the student's QQ performance level based on the number in the Conciencia fonologica (QQ) - Score column. Currently, no levels are determined for this measure.	

Conciencia fonologica (QQ) - Score	Numeric	0-66+ [Null]	Displays the student's raw QQ score when the measure is completed.	
Conciencia fonologica (QQ) - Local Percentile	Numeric	0-99 [Null]	A percentile for the student's QQ score that corresponds to that score's rank when compared to other students in the same grade for the same time of year.	
Sonidos de letras (FSL) - Level	String	Above Benchmark At Benchmark Below Benchmark Well Below Benchmark [Null]	Indicates the student's FSL performance level based on the number in the Sonidos de letras (FSL) - Score column.	
Sonidos de letras (FSL) - Score	Numeric	0-53+ [Null]	Displays the student's raw FSL score when the measure is completed.	
Sonidos de letras (FSL) - Local Percentile	Numeric	0-99 [Null]	A percentile for the student's FSL score that corresponds to that score's rank when compared to other students in the same grade for the same time of year.	
Sonidos de letras (FSL) - National Norm Percentile	Numeric	0-99 [Null]	A percentile for the student's FSL score that corresponds to that score's rank nationally when compared to other students in the same grade for the same time of year.	
Sonidos de letras (FSL) - Semester Growth	String	Well Below Average Below Average Average Above Average Well Above Average [Null]	Describes the student's progress achieved over a semester using BOY and MOY FSL results to calculate first semester growth and MOY and EOY FSL results for second semester. This column populates after MOY assessment when the student has both BOY and MOY results, and after EOY when the student has both MOY and EOY results. The column is null before MOY and when students lack the results necessary for growth calculation after MOY and EOY assessment.	
Sonidos de letras (FSL) - Year Growth	String	Well Below Average Below Average Average Above Average Well Above Average [Null]	Describes the student's progress achieved over the school year using BOY and EOY FSL results to calculate growth. This column populates after EOY assessment when the student has both BOY and EOY results. The column is null before EOY and when students lack the results necessary for growth calculation after EOY assessment.	
Sonidos de letras (FSL K-Inicio) - Level	String	Pass No Pass [Null]	Indicates the student's FSL K-Inicio performance level based on the number in the Sonidos de letras (FSL K-Inicio) - Score column.	
Sonidos de letras (FSL K-Inicio) - Score	Numeric	0-20+ [Null]	Displays the student's raw FSL K-Inicio score when the measure is completed.	
Sonidos de letras (FSL K-Inicio) - Local Percentile	Numeric	0-99 [Null]	A percentile for the student's FSL K-Inicio score that corresponds to that score's rank when compared to other students in the same grade for the same time of year.	
Decodificacion (LSS) - Level	String	Above Benchmark At Benchmark Below Benchmark Well Below Benchmark [Null]	Indicates the student's LSS performance level based on the number in the Decodificacion (LSS) - Score column.	
Decodificacion (LSS) - Score	Numeric	0-52+ [Null]	Displays the student's raw LSS score when the measure is completed.	
Decodificacion (LSS) - Local Percentile	Numeric	0-99 [Null]	A percentile for the student's LSS score that corresponds to that score's rank when compared to other students in the same grade for the same time of year.	
Decodificacion (LSS) - National Norm Percentile	Numeric	0-99 [Null]	A percentile for the student's LSS score that corresponds to that score's rank nationally when compared to other students in the same grade for the same time of year.	
Decodificacion (LSS) - Semester Growth	String	Well Below Average Below Average Average Above Average	Describes the student's progress achieved over a semester using BOY and MOY LSS results to calculate first semester growth and MOY and EOY LSS results for second semester. This	

		Well Above Average [Null]	column populates after MOY assessment when the student has both BOY and MOY results, and after EOY when the student has both MOY and EOY results. The column is null before MOY and when students lack the results necessary for growth calculation after MOY and EOY assessment.	
Decodificacion (LSS) - Year Growth	String	Well Below Average Below Average Average Above Average Well Above Average [Null]	Describes the student's progress achieved over the school year using BOY and EOY LSS results to calculate growth. This column populates after EOY assessment when the student has both BOY and EOY results. The column is null before EOY and when students lack the results necessary for growth calculation after EOY assessment.	
Lectura de palabras (FEP) - Level	String	Above Benchmark At Benchmark Below Benchmark Well Below Benchmark [Null]	Indicates the student's FEP performance level based on the number in the Lectura de palabras (FEP) - Score column.	
Lectura de palabras (FEP) - Score	Numeric	0-48+ [Null]	Displays the student's raw FEP score when the measure is completed. If the FEP Level is "Well Below Benchmark" and this column is empty, the student triggered the Discontinue gating rule and wasn't assessed on FEP.	
Lectura de palabras (FEP) - Local Percentile	String	0-99 Discontinued [Null]	A percentile for the student's FEP score that corresponds to that score's rank when compared to other students in the same grade for the same time of year. When a student is gated out of FEP, the gating rule ("Discontinued") displays instead of a percentile.	
Lectura de palabras (FEP) - National Norm Percentile	String	0-99 Discontinued [Null]	A percentile for the student's FEP score that corresponds to that score's rank nationally when compared to other students in the same grade for the same time of year. When a student is gated out of FEP, the gating rule ("Discontinued") displays instead of a percentile.	
Lectura de palabras (FEP) - Semester Growth	String	Well Below Average Below Average Average Above Average Well Above Average Discontinued [Null]	Describes the student's progress achieved over a semester using BOY and MOY FEP results to calculate first semester growth and MOY and EOY FEP results for second semester. This column populates after MOY assessment when the student has both BOY and MOY results, and after EOY when the student has both MOY and EOY results. The column is null before MOY and when students lack the results necessary for growth calculation after MOY and EOY assessment. "Discontinued" displays when students test out of FEP for the second benchmark period in a semester.	
Lectura de palabras (FEP) - Year Growth	String	Well Below Average Below Average Average Above Average Well Above Average Discontinued [Null]	Describes the student's progress achieved over the school year using BOY and EOY FEP results to calculate growth. This column populates after EOY assessment when the student has both BOY and EOY results. The column is null before EOY and when students lack the results necessary for growth calculation after EOY assessment. "Discontinued" displays when students test out of FEP for the EOY benchmark assessment.	
Fluidez en la lectura (FLO) - Level	String	Above Benchmark At Benchmark Below Benchmark Well Below Benchmark [Null]	Indicates the student's FLO performance level based on the number in the Fluidez en la lectura (FLO) - Score column.	
Fluidez en la lectura (FLO) - Score	Numeric	0-129+ [Null]	Displays the student's raw FLO score when the measure is completed.	
Fluidez en la lectura (FLO) - Local Percentile	String	0-99 Discontinued [Null]	A percentile for the student's FLO score that corresponds to that score's rank when compared to other students in the same grade for the same time of year.	

			When a student is gated out of FLO, the gating rule ("Discontinued") displays instead of a percentile.	
Fluidez en la lectura (FLO) - National Norm Percentile	String	0-99 Discontinued [Null]	A percentile for the student's FLO score that corresponds to that score's rank nationally when compared to other students in the same grade for the same time of year. When a student is gated out of FLO, the gating rule ("Discontinued") displays instead of a percentile.	
Fluidez en la lectura (FLO) - Semester Growth	String	Well Below Average Below Average Average Above Average Well Above Average Discontinued [Null]	Describes the student's progress achieved over a semester using BOY and MOY FLO results to calculate first semester growth and MOY and EOY FLO results for second semester. This column populates after MOY assessment when the student has both BOY and MOY results, and after EOY when the student has both MOY and EOY results. The column is null before MOY and when students lack the results necessary for growth calculation after MOY and EOY assessment. "Discontinued" displays when students test out of FLO for the second benchmark period in a semester.	
Fluidez en la lectura (FLO) - Year Growth	String	Well Below Average Below Average Average Above Average Well Above Average Discontinued [Null]	Describes the student's progress achieved over the school year using BOY and EOY FLO results to calculate growth. This column populates after EOY assessment when the student has both BOY and EOY results. The column is null before EOY and when students lack the results necessary for growth calculation after EOY assessment. "Discontinued" displays when students test out of FLO for the EOY benchmark assessment.	
Precision en la lectura (FLO-Prec) - Level	String	At Benchmark Below Benchmark Well Below Benchmark [Null]	Indicates the student's FLO-Prec performance level based on the number in the Precision en la lectura (FLO-Prec) - Score column.	
Precision en la lectura (FLO-Prec) - Score	Numeric	0-100 [Null]	Displays the student's FLO-Prec score when the measure is completed.	
Precision en la lectura (FLO-Prec) - Local Percentile	String	0-99 Discontinued [Null]	A percentile for the student's FLO-Prec score that corresponds to that score's rank when compared to other students in the same grade for the same time of year. When a student is gated out of FLO-Prec, the gating rule ("Discontinued") displays instead of a percentile.	
Precision en la lectura (FLO-Prec) - National Norm Percentile	String	0-99 Discontinued [Null]	A percentile for the student's FLO-Prec score that corresponds to that score's rank nationally when compared to other students in the same grade for the same time of year. When a student is gated out of FLO-Prec, the gating rule ("Discontinued") displays instead of a percentile.	
Precision en la lectura (FLO-Prec) - Semester Growth	String	Well Below Average Below Average Average Above Average Well Above Average Discontinued [Null]	Describes the student's progress achieved over a semester using BOY and MOY FLO-Prec results to calculate first semester growth and MOY and EOY FLO-Prec results for second semester. This column populates after MOY assessment when the student has both BOY and MOY results, and after EOY when the student has both MOY and EOY results. The column is null before MOY and when students lack the results necessary for growth calculation after MOY and EOY assessment. "Discontinued" displays when students test out of FLO-Prec for the second benchmark period in a semester.	
Precision en la lectura (FLO-Prec) - Year Growth	String	Well Below Average Below Average Average Above Average Well Above Average [Null]	Describes the student's progress achieved over the school year using BOY and EOY FLO-Prec results to calculate growth. This column populates after EOY assessment when the student has both	

		Discontinued [Null]	BOY and EOY results. The column is null before EOY and when students lack the results necessary for growth calculation after EOY assessment. "Discontinued" displays when students test out of FLO-Prec for the EOY benchmark assessment.	
Comprehension basica (CP) - Level	String	Not Determined At Benchmark Below Benchmark [Null]	Indicates the student's CP performance level based on the number in the Comprehension basica (CP) - Score column. Performance levels are not determined for Grade 1 students.	
Comprehension basica (CP) - Score	Numeric	0-9+ [Null]	Displays the student's final CP score when the measure is completed.	
Comprehension basica (CP) - Local Percentile	Numeric	0-99 [Null]	A percentile for the student's CP score that corresponds to that score's rank when compared to other students in the same grade for the same time of year.	
Comprehension basica (CP) - National Norm Percentile	Numeric	0-99 [Null]	A percentile for the student's CP score that corresponds to that score's rank nationally when compared to other students in the same grade for the same time of year.	
Comprehension basica (CP) - Semester Growth	String	Well Below Average Below Average Average Above Average Well Above Average [Null]	Describes the student's progress achieved over a semester using BOY and MOY CP results to calculate first semester growth and MOY and EOY CP results for second semester. This column populates after MOY assessment when the student has both BOY and MOY results, and after EOY when the student has both MOY and EOY results. The column is null before MOY and when students lack the results necessary for growth calculation after MOY and EOY assessment.	
Comprehension basica (CP) - Year Growth	String	Well Below Average Below Average Average Above Average Well Above Average [Null]	Describes the student's progress achieved over the school year using BOY and EOY CP results to calculate growth. This column populates after EOY assessment when the student has both BOY and EOY results. The column is null before EOY and when students lack the results necessary for growth calculation after EOY assessment.	
Correct Responses (CP) - Score	Numeric	0-9+ [Null]	Displays the number of correct CP responses the student selected.	
Incorrect Responses (CP) - Score	Numeric	0-9+ [Null]	Displays the number of incorrect CP responses the student selected.	
Risk Indicator (Espanol) - Level	String	At Risk Low Risk [Null]	Indicates whether the student's mCLASS Lectura results suggest the student might be at additional risk for reading difficulties, including difficulty related to dyslexia. The column is null when the student has not completed the mCLASS Lectura benchmark or is in Grade 4 and above.	
Vocabulario - Level	String	Below Benchmark At or Above Benchmark [Null]	Indicates the student's Vocabulario proficiency level based on the measure score in the Vocabulario - Score column.	
Vocabulario - Score	Numeric	0-26+ [Null]	Displays the student's raw Vocabulario score when the measure is completed.	
Ortografia - Level	String	Well Below Benchmark Below Benchmark At or Above Benchmark [Null]	Indicates the student's Ortografia proficiency level based on the measure score in the Ortografia - Score column.	
Ortografia - Score	Numeric	0-72+ [Null]	Displays the student's raw score of Correct Letter Sequences when the measure is completed.	
Lenguaje oral - Level	String	Below Benchmark At or Above Benchmark [Null]	Indicates the student's Oral Language proficiency level based on the measure score in the Lenguaje oral - Score column.	

Lenguaje oral - Score	Numeric	0-21 [Null]	Displays the student's Oral Language score.	
Date of Birth	Date	YYYY-MM-DD MM/DD/YYYY [Null]	Displays the student's date of birth when one is provided.	
Gender	String	Female Male Non-binary No Value Provided	Indicates the gender of the student when specified.	
Race	String	American Indian or Alaska Native Asian Black or African-American Two or More Races = two races mentioned from this list Native Hawaiian or Other Pacific Islander No Value Provided Other Race Indicator = single race other than mentioned in the list White	Indicates the race or ethnicity of the student when specified.	
Hispanic or Latino Ethnicity	String	No No Value Provided Yes	Indicates whether the student's ethnicity is Hispanic or Latino.	
Special Education	String	No No Value Provided Yes	Indicates whether the student is eligible for special education.	
Disability	String	No No Value Provided Yes	Indicates whether the student has a physical, sensory, cognitive, or developmental disability.	
Specific Disability	String	SLD = Specific learning disability SLI = Speech or language impairment EMN = Emotional disturbance ID= Intellectual disability HI = Hearing impairment OI = Orthopedic impairment VI = Visual impairment AUT = Autism TBI = Traumatic brain injury DD = Development delay MD = Multiple disabilities OHI = Other health impairment DB = Deaf/blind No Value Provided	Indicates the abbreviation for the student's specific disability when the student is identified as having a disability in the previous column.	
Section 504	String	No No Value Provided Yes	Indicates whether students eligible for special education require supplementary services.	
IEP Status	String	No No Value Provided Yes	Indicates whether the student is eligible for Individualized Education Programs.	
Economically Disadvantaged	String	No No Value Provided Yes	Indicates whether the student is a member of a household that meets the income eligibility requirements for public assistance.	
Meal Status	String	Free Full Price No Value Provided Other Reduced Price	Indicates whether the student is eligible for free or reduced-cost meals.	
Title I	String	No No Value Provided Yes	Indicates whether the student is enrolled in a Title I program for the disadvantaged.	
Migrant	String	No No Value Provided Yes	Indicates whether the student is a migratory worker or the child of a migratory worker who has moved from	

			one district to another in the past 36 months.	
ELL Status	String	No No Value Provided Yes	Indicates whether the student is an English Language Learner.	
Home Language	String	ARA = Arabic HYE = Armenian BEN = Bengali YUE = Cantonese ZHO = Chinese ENG = English FRC = French DEU = German ELL = Greek GUJ = Gujarati HAT = Haitian HEB = Hebrew HIN = Hindi HMN = Hmong ITA = Italian JPN = Japanese KHM = Khmer KOR = Korean LAO = Lao CMS = Mandarin NAV = Navajo No Value Provided FAS = Persian POL = Polish POR = Portuguese PAN = Punjabi RUS = Russian HBS = Serbo-Croatian SPA = Spanish SWA = Swahili TGL = Tagalog TAM = Tamil TEL = Telugu THA = Thai URD = Urdu VIE = Vietnamese YID = Yiddish Other = Other language which is not mentioned in the list	Indicates the abbreviation for the primary language spoken in the student's home when the student is identified as an English Language Learner.	
Secondary Student ID	String	AS-JS-001 [Null]	Displays the customer-issued secondary student ID when one exists.	
Additional Student ID	String	AS-JS-001 [Null]	Displays a customer-issued additional student ID when one exists.	
Custom demographics	Metadata or String	Provided by organization	Custom demographic categories and values are provided in your organization's student rosters. Custom demographic columns display the provided demographic category as the Column Name, and the Value is a single selection from the provided values. The DYD report will contain the first 10 custom demographics in the following order: number, uppercase letter, lowercase letter.
