When adding Column Options, you can move the columns, delete some columns, determine if you want the Description, Code or both.

I like to add the *column for Incident Number* so I can easily look up the incident in the SIS or email the campus admin with an Incident Number for their reference.

There are MANY Criteria you can add in order to create ad-hoc reports! I usually start out by typing DISC into the Search bar to bring up some of the most used Discipline criteria. You can also scroll through the list, if you want!

When would you use an Ad-Hoc Report?

When the custom reports already built by OnDataSuite might not have *exactly* the data you need, or the data requested by a campus administrator is specific.

The Ad-Hoc reports do not have to be fancy!

This one is just a quick report to show which students had a continuing DAEP placement from another district.

Click on any of the numbers in BLUE and you can drill down to the student information.

When creating an Ad–Hoc report, you can start easy. This report I only used the Criteria of Disciplinary Action Code. I didn't do any filtering and just chose this school year. At a quick glance, we can see how many students received OSS, how many students came to us to continue another district's DAEP placement, and more!
