

PEIMS OPEN FORUM

AGENDA

DATE: 5/5/2026
TIME: 10:00 AM

I. WELCOME

II. ED-FI GO LIVE 25-26 STATUS:

- **Important notice** to LOAD FALL Submission CSV for 25-26
- **Overnight Data Populating** –
 - Some districts may notice a slight delay in overnight data populating in the morning, particularly affecting Dashboard Summer Counts and CTE and Program of Study codes related to CCMR. This is due to a process running slower than expected.
 - Our team is actively addressing this to improve processing speed, and things should return to normal shortly.
 - If your district continues to experience delays, please submit a support ticket so we can assist you directly. Thank you for your patience!
- PEIMS Attendance csv files can now be loaded into the File Center:
