

Load TSDS/PEIMS Files

AUGUST 4 2026

Agenda

1. Ed-Fi connection overview
2. Set up the TEA IODS connection
3. 2026-2027 TEA submission timeline
4. Check promotion data
5. Load finalized TSDS CSV files
6. Find and monitor TSDS Rules
7. Support resources

How the Ed-Fi connection works

- Your SIS and business systems publish data to the TEA Individual Operational Data Store (IODS).
- OnDataSuite uses a read-only API connection to pull data from the TEA IODS.
- ODS promotes the pulled data into submission and collection reporting.
- Scheduled pulls keep reporting current when changes exist.
- After a submission is finalized, TSDS CSV files can be loaded to preserve the accepted dataset.

Ed-Fi connection overview

Student Information Systems (SIS)

- Attendance/Enrollment
- Eco-Dis Status/Census Block
- Homeless Status
- Special Populations

Business Information Systems (BIS/ERP)

- Staff demographics
- Payroll
- Budget
- Actuals

API

Reported to TEA through PEIMS

API

OnDataSuite

Promoted using same logic as TEA PEIMS

 OnDataSuite®

Set up the TEA IODS connection

Location in OnDataSuite

- Hamburger menu Quick Link, or Administrator > Site Settings

Before you begin

- A TEAL administrator adds OnDataSuite as an application.
- Claim Set Name: Read-Only All Resources.
- OnDataSuite consumes data from TEA IODS; it does not publish data to TEA.
- Create a new Key and Secret for the 2026-2027 school year.

Step 1: Create the TEA Key & Secret

Login to TSDS and go to DMC

The screenshot shows the TSDS (Texas Student Data System) homepage. The navigation bar includes links for Home, eDM Data Loads, DMC, PEIMS, Core Collection, Utilities, and Support. The DMC link is highlighted with a green box. A large green circle with the number '1' is positioned to the right of the navigation bar. Below the navigation bar, the breadcrumb 'Home » DMC' is visible. On the left, there is a photo of a young boy in a classroom. The main heading is 'Welcome to the DMC'. Below this, a paragraph explains the DMC's purpose. A bulleted list of features is provided. A green arrow points from the 'Manage IODS' button to the text below it. At the bottom, a note mentions permissions and provides a link to TEAL.

Home » DMC

Welcome to the DMC

The Data Management Center (DMC) consists of an application that allows you to monitor and validate your data, and an individual operational data store (IODS) that serves your local organization. Education organizations store all of their TSDS reporting data in their individual ODS prior to promoting it to the data collections in TSDS. Together, these two systems:

- Allow LEAs and ESCs to synchronize near-real-time updates via API between their source systems and their IODS
- Enable LEAs and ESCs to perform rigorous validations on their data early in the submission process
- Provide LEAs and ESCs the ability to search and view their data in their IODS

Use the button below to monitor, and validate your organization's data and administer your IODS.

Get Started with the DMC

Manage IODS

If you do not see an expected function, you may have selected an organization for which you do not have the necessary permissions. Please select a different organization or visit [TEAL](#) to request new permissions.

Step 1: Create the TEA Key & Secret

Under Admin select Manage Applications, Keys and Secrets

The screenshot shows the TEA Data Management Center (DMC) interface. The top navigation bar includes links for Monitor Validations, Admin, View Reports, and Search Data. The 'Admin' menu is expanded, showing options for Manage Claim Sets, Manage Applications, Keys, and Secrets (highlighted with a green arrow and a circled '2'), and Map Descriptors. The main content area displays a welcome message and a description of the DMC's purpose.

Manage Applications, Keys, and Secrets
Map Descriptors

Welcome to the DMC

The Data Management Center (DMC) is the application that allows users to monitor and validate the data that has been loaded to their Individual Operational Data Stores (IODSs) and to perform configurations for their IODSs.

The DMC and IODSs benefit local education agencies (LEAs), Education Service Centers (ESCs), educators, students, and stakeholders by:

- automating data loading and eliminating bulk load processes
- improving performance
- providing robust validations early in the data submission process
- aligning to Ed-Fi vendor products by using the latest Ed-Fi standards
- allowing LEAs and ESCs to store non-TSDS data in their IODSs for local use purposes

Step 1: Create the TEA Key & Secret

Set up a Key & Secret for ODS with Read Only Resources. Copy the Key & Secret

Application Name

Claim Set: Read-Only All Resources

Key and Secret: You cannot view an existing key and secret. If you need a key and secret for this application, you must regenerate.

Date Generated: 11/6/2025

3

Application Name: OnDataSuite

Claim Set: Read-Only All Resources

Key and Secret: You cannot view an existing key and secret. If you need a key and secret for this application, you must regenerate.

Date Generated: 10/16/2025

Step 2: Enter the Key and Secret to ODS

ODS Administrators will select TEA Ed-Fi IODS Connection from the right corner menu.

Step 2: Enter the Key and Secret to ODS

Copy the Key and Secret to Notepad first, then paste them into OnDataSuite. Select Save/Update/Sync to initiate the connection.

Ed-Fi 2026-2027 COMING SOON

 COMING SOON

The 2026-2027 Ed-Fi year is not ready yet
Save your 2026-2027 TEA key and secret here so we have them on file. Nothing is pulled or promoted for 2026-2027 yet — we are still building out the year and will make it the default once TEA's data becomes widely available. Pull and promotion options appear on this tab as they are released.

Step 3: Confirm the first sync

A yellow processing summary displays while data pulls and promotes. When complete, Latest Sync and the user/date/time stamp update. **NOTE: While ODS is still getting promotion data ready for 26-27, you may not see the connection. You will not need to re-enter the Key & Secret.**

Key	Secret	Latest Sync
123456789		5 months ago

OnDataSuite is currently pulling data from the TEA Ed-Fi IODS or promoting data from your OnDataSuite Landing Zone to your ODS. Once the process is complete, please check the File Center for detailed information on the file load.

Processing Summary

Promote Data to ODS	2	Summer Edits for rule 42400-0039 pending
Edits	547	Summer Edits for rule 44425-0085 pending
		Summer Edits for rule 42400-0040 pending
		Summer Edits for rule 45435-0002 pending

Schedule and monitor data pulls

Nightly Data Pull Schedule

- Defaults to a 4:00-5:00 a.m. window every day.
- Change the time range or active days as needed.
- Disable a prior-year connection after all submissions and collections are complete.

Monitor activity

- The footer displays the latest TEA Ed-Fi IODS pull.
- Select the timestamp to view the 30-day pull log, IODS year, and pull type.

Nightly Data Pull Schedule

Disabled

Select a time range for automatic data pulls from your TEA IODS:

4:00 AM - 5:00 AM

Select which days of the week to perform data pulls from your TEA IODS:

☒ Sunday ☒ Monday ☒ Tuesday ☒ Wednesday ☒ Thursday ☒ Friday ☒ Saturday

⚠ Ed-Fi is disabled!

Check Promotions with Dashboard

Dashboard is a user-specific workspace for personalized data monitoring. *Widgets for Fall Enrollment are in progress.*

The screenshot displays the 'Fall Dashboard' interface. On the left is a sidebar with navigation links: Home - Heather Potts, PEIMS Fall Review, Principal, Fall Dashboard, Summer Dashboard Cumulativ..., Summer Dashboard Days Me..., Campus Student Dashboard, STAAR & TELPAS Dashboard, Attendance & Discipline Dashb..., Campus Staff Dashboard, Campus Organization Dashbo..., and Principal. The main content area is titled 'Fall Dashboard' and contains three primary widgets. The first widget, '2025-2026 Fall District Information', shows details for 'Demo Site #1' at 106 E Forrest, VICTORIA, TX 77904, with contact numbers (361) 485-0004 and (361) 485-0330. It also lists district information, programs of study, and gifted and talented programs. The second widget, '2025-2026 Fall PEIMS School Population', provides a table of school population counts and percentages. The third widget, '2025-2026 Fall PEIMS Student Demographics', shows a table of student demographics. A 'Tools' button is located in the top right corner of the dashboard area.

School Population	Count	Percent

Load finalized CSV files

1. In TSDS, open View Reports for the PEIMS submission. For a Core Collection, switch to that collection before proceeding.
2. Use the applicable TSDS option to generate the CSV files. This is available for PEIMS Fall, Mid-Year, Summer, Extended Year and Attendance, plus supported Core Collections.

Only begin after the submission or collection has been finalized and approved.

Load finalized CSV files

In TSDS, open Access Data for the PEIMS submission. For a Core Collection, switch to that collection before proceeding. Select the appropriate year and either Accepted or Resubmission. **Only begin after the submission or collection has been finalized and approved.**

Load finalized CSV files

Select All Categories and provide a name for the file of your choice.

Name	Year	Submission	Preliminary	Rep Period	Process
			☐	N/A	
			☐	N/A	

Changes after the CSV upload

- The TEA Ed-Fi IODS promotion schedule is disabled for that submission.
- Previously promoted records for the submission are deleted from ODS.
- The CSV is processed, and dashboards and reports use the CSV dataset.
- To return to Ed-Fi promotion, delete the associated CSV and reactivate the collection.
- If ODS and final TSDS PDM results differ, submit an ODS ticket and attach the TSDS PDM report.

TSDS Ed-Fi Rules

Open TSDS Rules from the top blue menu bar.

- Users need Show SSN access; otherwise the menu is grayed out.
- Select the submission or collection in the left navigation.
- Filter by campus or use the district view.
- Review Fatal, Warning, and Special Warning counts.
- Unique = number of distinct rules; Total = all edits triggered.
- Select a category or rule to drill into the records causing the edit.

Configure year, campus, severity, category, and error-percentage shading. Select a summary or sub-category title to drill directly into rule details. **If CSV files are loaded for a submission, Ed-Fi Rules are no longer available because they depend on promotion logic.**
